Eluru, Andhra Pradesh, India | +91 6302471838 | jagadeeshveeranki30@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Java and Python and Full-Stack Software Developer pursuing a Master of Computer Applications (MCA), with hands-on experience building full-stack web applications and desktop software using Python, Java, Flask, SQL, and JavaScript. Skilled in RESTful API Development, Object-Oriented Programming (OOP), relational database design, and Git version control. Proven ability to independently design, develop, and deploy secure, multi-user applications from concept to a containerized, production-ready build. Adaptable, detail-oriented, and effective communicator seeking an entry-level Software Developer, Python Developer, or Full-Stack Developer role.

CORE TECHNICAL SKILLS

Programming Languages: Python, Java, SQL, JavaScript (ES6), HTML5, CSS3

Frontend Development: HTML5, CSS3, JavaScript (ES6), Responsive Web Design

Database: SQL, SQLite, Relational Database Management System (RDBMS), Database Design & Management

Desktop Application Development: Python (Tkinter, CustomTkinter), APScheduler (Background Job Scheduling)

Tools, DevOps & Version Control: Git, GitHub, Docker (Containerization), Software Development Life Cycle (SDLC)

Core Competencies: Problem Solving, Object-Oriented Programming (OOP), Application Development, Software Development, Adaptability & Flexibility, Attention to Detail, Decision Making, Effective Communication, Team Collaboration, Creativity & Innovation

PROJECTS

Expense Tracker — Full-Stack Web Application

Personal Project

Python, Flask, SQLAlchemy, Flask-Login, Bootstrap 5, Chart.js, SQLite, Docker, Gunicorn, REST API

- Designed and developed a secure, multi-user personal finance web application using the Application Factory design pattern with 5 modular Flask Blueprints (auth, dashboard, expenses, reports, API).
- Implemented secure authentication with bcrypt password hashing, CSRF protection, custom CAPTCHA, and brute-force login logout.
- Built multi-currency expense tracking across 8 currencies with category-wise monthly budgeting and automatic overspending alerts.
- Developed a live analytics dashboard with Chart.js visualizations (Doughnut, Bar, Line) powered by a dedicated REST API endpoint.
- Built multi-format data export/import using OpenPyXL (Excel) and FPDF2 (branded PDF reports), plus CSV support.
- Designed a full JSON REST API (CRUD operations) alongside server-rendered views, and containerized the application with a multi-stage Dockerfile deployed via Gunicorn.

Task Manager — Python Desktop Productivity Application

Personal Project

Python, CustomTkinter, Tkinter, APScheduler, SQLite, plyer, HTML/CSS/JavaScript

- Built a standalone, offline-first desktop productivity application in Python using Object-Oriented Programming (OOP) principles and a local SQLite database.
- Engineered a background task scheduler (APScheduler) combining exact one-shot jobs with a 5-second polling fallback to trigger real-time reminders.
- Designed an animated, always-on-top alert popup with live countdown, snooze, and auto-dismiss functionality, plus native desktop notifications via plyer.
- Implemented priority-based task categorization, live task statistics, and sorting/filtering for improved usability.
- Developed a fully independent browser-based clone of the application using HTML, CSS, and JavaScript (localStorage and Notification API).

EDUCATION

Master of Computer Applications (MCA)

2024 – 2026 (Pursuing)

Varaprasad Reddy Institute of Technology, Kantepudi — JNTUK

Bachelor of Science (B.Sc.)

2021 – 2024

Sir C.R. Reddy College (Autonomous), Eluru — Adikavi Nannaya University | CGPA: 9.2

Intermediate Education

2019 – 2021

NRI Junior College, Eluru — Board of Intermediate Education | Percentage: 8.2%

Secondary School Certificate (S.S.C.)

2018 – 2019

Sri Vidyanilayam High School, Vidyanagar — Board of Secondary Education | Percentage: 8.8%

CERTIFICATIONS & TRAINING

- Python Certification — OTP Technologies & Pvt Ltd
- Python for Data Science Certification — IBM
- Introduction to Artificial Intelligence (AI) — Great Learning
- Graphic Designing Certification — Co Skills
- Workshop on Python and its Applications — APSDC
